From Principal's Desk (Brief Overview Of all events)

The month of March witnessed a number of student-centered academic, sports & extension activities organized across all the departments. The activities include student seminars, GDs, Quizzes, field visits, taking MoUs with other institutions, career counseling etc. All are aimed at the holistic development of the students by engaging them proactively for a rich learning experience and skill acquisition.

A feather in the cap for the college is that 54 students from the college were selected in the Campus Drive organized under JKC platform. About 100 students were enrolled in PYTHON MASTER CLASS under APSSDC in the college. Extension activities like offering medicines and clothes to the old were organized by Telugu and Social work departments. Among the extra-curricular activities, the college was the venue for the inter-college (AKNU) kho kho competitions and selections for the university team to participate in All India South Zone Inter-university competitions. Initiated by the IQAC, all the departments reviewed and launched two best practices from this month.

❖ Objective Test on 15.03.2022

Conducted objective test with ten multiple choice questions on III module (Production Theory) for first BA students. Twelve students out of 23 attended the test. Objective type test gives scope for wider sampling of the content.

❖ Student study Project from 14.03.2022 to 24.03.2022

A student study project was conducted for I and II BA students on “Advertisements”. They have the concept of market structures in their syllabus. Among the different types of market structures, monopolistic competition and oligopoly are most happening structures today in which advertising of a product is an important feature. Hence it is relevant to study the nature of advertisements to make students understand the types, advantages, disadvantages, importance, competition etc. For this, a predefined questionnaire was given to students to collect some inputs. Students participated well and collected, tabulated and analyzed the inputs.

Major Findings

- In almost all the advertisements, movie actors and sports persons are used to attract consumers as they have a greater number of followers.
- Ten advertisements show non price competition, two advertisements show price competition and remaining two show both price and non-price competition.
- It clearly shows the dominance of product differentiation in marketing strategies.
- The products in the sample which belong to the oligopoly market are 12.5 percent and remaining 87.5 percent belong to monopolistic competition.
- All the advertisements are competitive in nature and no advertisement is only informative.
- Low price and high quality have no room in advertising and the only thing is to attract consumers with dialogues, appearance of actors, locations etc. and
- The new trend has changed to organic inputs like salt in toothpaste, aloe vera in shampoo and soaps etc.

❖ **CID Session TWO on 28.03.2022**

In Session two of the departmental best practice **Current Issue Dig and Discuss (CID)** was conducted on the topic **UNICORN** companies. Unicorn is a business term used to define a startup with a valuation of over \$ 1 billion. The term was coined by a venture capitalist Aileen Lee. As India is becoming the world's fastest growing startup ecosystem, it is relevant to students of economics to know the basics of this concept and get motivated to entrepreneurship. Two advanced learners of I BA were assigned to collect basic information on unicorn companies and discussed with their batch mates further.

❖ Online Test on 31.03.2022

A grand objective test was conducted for II BA students of SCHVPMR and RRDS government degree colleges on total III semester syllabus (Economics Paper III - Development Economics) as an academic activity under MOU between the Departments of Economics of two colleges.
