

Dated 01.08.2019

Sub: Establishment of Incubation & Innovation Center for the promotion of research culture among the students - constitution of committee - Reg.

In obedience to the guideline of the Hon'ble Commissioner, CCE and NAAC Revised Accreditation Framework, I am pleased to establish Incubation & Innovation Center in the college for the promotion of research culture among the students with the following members.

Incubation Center

1. Dr. V. Sandhya,, Lecturer in Zoology, Coordinator
2. Sri P. Madhuraju, Lecturer in Physics, Member
3. Sri DVVCH Satyanarayana, Lecturer in History, Member
4. Sri PV Rameshbabu, Lecturer in Computer Applications, Member
5. B. Ruchita Devi, II BSc., Member
6. P. Peddiraju, II BA., Member

The coordinator and members are advised to take care of the activities under the Incubation Center as per the requirements and norms.

Students visit to Common Service Center

Planting saplings by Guests

Students Field visit to Horticultural University, Venkatramannagudem

Students Visit to Agricultural Field

Commerce Students visit to Industries

Vehicle Free Days

SCHVPMR GOVT. DEGREE COLLEGE

Green campus initiatives

A few initiatives are taken to protect the environment, and keep the campus clean and green.

1. Restricted entry of automobiles

An institutional best practice is 'vehicle-free day'. Vehicle-free day is observed on the second Tuesday of every month by the students as well as the staff. On this specific day, no vehicle is observed on the premises of the college except bicycles. All fuel-run vehicles are strictly prohibited from the campus on the day. The staff come to college, either by bicycles or on foot. Those who come from a little farther away would come by public transport. Towards the end of the day, an awareness meeting with all the students and staff is arranged, and the issues related to environment protection are discussed at length with a view to preparing the students for an eco-friendly lifestyle. At times, an expert in the subject is also invited to make a speech and interact with the students.

2. Use of bicycles

Bicycles are said to be the best vehicle from an environmental, economy and health point of view. Out of 363 students on roll, about 150 students come to college on bicycles. Only 15 to 25 students come on bikes. A few staff members also come on bicycles to college daily. About 150 to 200 students come by bus or auto.

3. Pedestrian-friendly pathways

The pathways on the college premises are customized to suit the pedestrians needs.

4. Ban on use of plastic

The use of plastic is completely restricted and polythene bags are banned on the campus.

5. Landscaping with trees and plants

The college campus is beautifully surrounded by trees. Further, the college ground is on the bank of a flowing canal on two sides.
