

Report on Student centered Methods

In the light of the new education policy, student-centered teaching learning gained unprecedented prominence since it can effectively deliver the goods, and hence, the learning outcomes will be more useful and skill-oriented. Pertaining to the department of Computer Applications, the student-centered methods like interactive method, activity-based teaching and evaluation, communicative language teaching methods have been adopted, involving the students right from the planning to the execution level of the activities. The ICT classes are held mostly in a smart room where internet connection is available; hence, a blended method of teaching is also followed by the department.

VI - SEMESTER (2020-21)		
S.No	Name of the Student centered Methods	Date
1	Student Seminar	16.02.2021
2	Group Discussion	27.02.2021

I - SEMESTER (2021-22)		
S.No	Name of the Student centered Methods	Date
1	Student Seminar	10.02.2022
2	Student Seminar	14.03.2022
3	Best Practices	19.04.2022
II SEMESTER (2020-21)		
1	Student Seminar	24.06.2022
2	Online Quiz	28.07.2022
III SEMESTER (2021-22)		
1.	Student Seminar	14.03.2022
IV SEMESTER (2021-22)		
1	Group Discussion	28.07.2022
VI SEMESTER (2021-22)		
1	Student Seminar	30.06.2022
