**ELOCUTION COMPETITION ON WORLD NATURE CONSERVATION DAY**

**REPORT**

World Nature Conservation Day is observed on **28 July** every year. The main aim of this day is to spread awareness regarding the protection of nature and biodiversity for a healthy environment which is required for prospering humankind. It is also marked as the day to create positive opinions about climate change. Eco Club in association with the Department of Chemistry has conducted an Elocution competition for our students. Total 52 students participated in the program.

So the prime focus for this day is to preserve the environment and nurture it. And the objective is to draw attention to the flora and fauna species that have a threat of extinction in the near future. In addition, the various components need to be conserved, like soil, water, air and energy resources. The future generations should be kept in mind by properly managing the resources available.
