SCHVPMR GOVERNMENT DEGREE COLLEGE, GANAPAVARAM

DEPARTMENT OF ZOOLOGY, RRC and NSS- BLOOD GROUP IDENTIFICATION

REPORT

Eco Club in association with the NSS Unit of GDC Ganapavaram and Red Ribbon Club organized “**BLOOD GROUP IDENTIFICATION**” program on 20.08.2018 in the college campus. It was attended by NSS Programme Coordinator, college staff and 40 student volunteers. BSc BZC students were trained to take the blood sample and do the agglutination test to identify the blood group. Blood grouping was done using a blood group test kit. The ABO and Rh blood grouping system is based on agglutination reactions. When red blood cells carrying one or both the antigens are exposed to the corresponding antibodies, they interact with each other to form visible agglutination or clumping. This practice will create an awareness among the students about the importance of receiving appropriate donor blood during an emergency, to help the society through blood donations, to know whether his/ her blood group is common or rare and to understand about Rh factor incompatibility during pregnancy.
