The Indian government strives to promote a national resolve to mitigate the damage and destruction caused by natural and manmade disasters. Through sustained and collective efforts of all government agencies non- governmental organizations and peoples participation. Certificate in Disaster Management course, students develop skills in areas such as logistics and supply chain management, public health information and communication useful in the long term. The disaster management certificate course is extremely thoughtful and existing educational part. Student can appreciate the intrinsic value of a disaster management course as it offers more job opportunities than any other degrees.

Disaster management plays an integral role in keeping communities safe. It involves coordinating the resources, such as pollution control systems, and

responsibilities, such as following best practice policies, needed to prevent, prepare for, respond to, and recover from emergencies.

Disaster Management assures the safety of any living beings at the time of emergency, and natural and man-made disasters. To provide training in this domain to aspirants, colleges and universities in India have started courses in Disaster Management. These courses are provided at different programmes, like degree, diploma and certificate. Many colleges and universities all over India provide research programmes in Disaster Management.

Disaster management is provided in various courses, like Master in Business Administration (MBA), Master in Arts (MA), Master in Science (MSc), Doctorate of Philosophy (PhD), and Master in Philosophy (MPhil). One of the course that is becoming very popular in this field is MBA degree in Disaster Management.

There are various career opportunities for disaster management aspirants in government sector with emergency services, relief groups, law enforcement department and local authorities as well as in private agencies and non-profit organisations which provide disaster management services. International agencies like the United Nations also employ disaster management professionals.
