About the Webinar:

To join the UNO's initiative of '16 days of activism' in the light of the International Day for the Elimination of Violence against Women on 25th November, a Local Webinar is being organized by the Women Empowerment Cell of GDC, Ganapavaram. This year's International Day for the Elimination of Violence against Women launches 16 days of activism to be concluded on the 10th of December 2020 — the day that commemorates the International Human Rights Day. Several public events are being coordinated by the UNO to recall the need for a violence-free future.

A new report from UN Women, based on data from 13 countries since the pandemic, shows that 2 in 3 women reported that they or a woman they know experienced some form of violence. Only 1 in 10 women said that victims would go to the police for help. It is believed that "stopping this violence starts with adopting comprehensive and inclusive approaches that tackle the root causes, transform harmful social norms, and empower women and girls. With survivor-centered essential services across policing, justice, health, and social sectors, and sufficient financing for the women's rights agenda, we can end gender-based violence" (UNO).
