

❖ **Simulation Game on 02.12.2024**

Organized a simulation game for I BA students under Peer Group Learning (PGL) with an objective to improve analytical skills and computer expertise of the students. First, students were suggested to make a word document on the details of the assigned ministry with an attractive cover page. On the specific day, students acted as Andhra Pradesh Council of Ministers and answered the queries of the members in the session. They were actively involved in the session and tried their best to answer the queries.

Students making Word Document
