

An **INTERDISCIPLINARY** Guest Lecture on “**Green Revolution – Seed Technologies**” was arranged to the students of BA of SCHVPMR Govt. Degree College, Ganapavaram, W. G. Dt. on **28.02.2026** on the occasion of **National Science Day**.

**Resource Person: Dr Ch. Chaitanya, Lecturer in Botany, SCHVPMR Govt. Degree College, Ganapavaram**

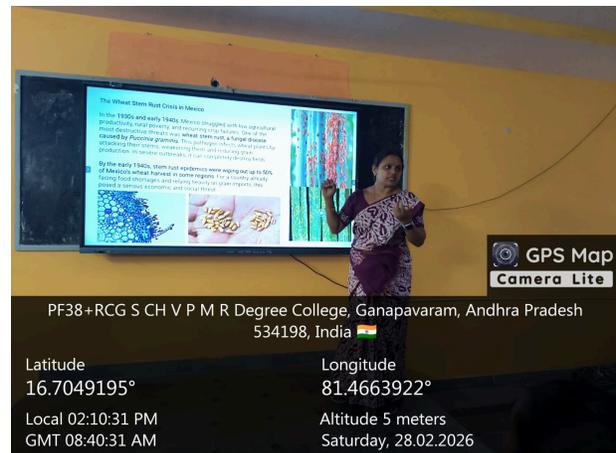

Her lecture provided students with a clear and scientifically grounded understanding of modern seed technologies, particularly Genetically Modified Organisms (GMOs). By explaining the biological principles, agronomic relevance, and safety dimensions of GM seeds, you successfully complemented the economic and historical perspectives taught in the classroom. Your ability to address common misconceptions with scientific clarity greatly enriches students’ learning experience. 28 students attended the session and interacted with the resource person well at the end of the session. The session strongly reflected the spirit of the **National Education Policy (NEP) 2020**, especially its emphasis on interdisciplinary learning, scientific temper, and critical thinking. Students benefited immensely from her clear explanations and engaging interaction, which bridged the disciplines of economics and botany in a meaningful and pedagogically effective manner.

We deeply appreciate your cooperation, academic commitment, and willingness to share your expertise for the benefit of our students. We look forward to continued academic collaboration in the future.
